

At Go Green, we
produce events that
are:

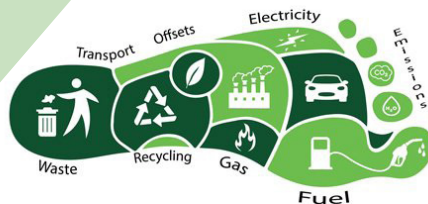

- ▶ **Cost-efficient**
- ▶ **Sustainable**
- ▶ **Memorable**

1234 Marsh Street
San Luis Obispo, Ca 93401

Go Green is a sustainable event management company based in San Luis Obispo, California. We provide event management services for businesses and work to make these events more sustainable. **Our mission** is to create memorable events that reflect the brands of our clients and maintain a genuine commitment to sustainability. Large events have historically contributed to large amounts of waste and carbon emissions. Now, many businesses are feeling a social responsibility to contribute to the well-being of their consumers, communities, and environments. Many are also looking for ways to reduce waste during events and develop cost-efficient practices. This is where Go Green can step in and help make your event more sustainable, cost-efficient, and eco-friendly. We have worked with social and corporate clients around the Central Coast and are ready to help you plan your next event. We will help manage the planning process and can help source local venues, caterers, and suppliers who are committed to sustainability. We partner with local producers and implement sustainable practices into events. For more information, please visit our website.

Think **Green**
